INTROD UCTION

Why work when you can just pay to play instead? A Gift Economy is a Debt Economy in my book. Sometimes the work I do results in earning neither income, livelihood, nor play, and often I find myself paying to work rather than being paid *for* work. Whenever this happens, I count my losses and take my chances gambling for alternatives.

The price to purchase this book is equivalent to the money I spent on losing lottery and scratch tickets over the last 6 years (\$222), plus whatever Lulu charges for its print on demand services. *Reimbursement* is for *the work*. Whether you have to work to pay for it or not, regardless of my job, now it's your turn. Pay to play. Play to live. Win for life.
